PIEK*

Compact transport helper

- Compact design for fast, easy manoeuvring in confined spaces
- Low steering effort for reduced fatigue during physically demanding tasks
- Robust chassis and reinforced forks for transporting loads of up to two tonnes
- T14 and T16 compact models for operation in confined spaces e.g. city centre deliveries

* PIEK certified. Low noise pollution, max. 60 dB(A)

CHARACTERISTICS

Long tiller and low mounted chassis

Safety

- Long tiller arm ensures operator is at a safe distance from the truck
- Low chassis skirt and optional active bumper prevent foot injuries
- Automatic electromagnetic brake and belly switch for reduced accident risk
- Automatic parking brake holds truck securely on loading ramps or inclines

Shaped tiller head with intuitive controls

Ergonomics

- Ergonomic tiller head with easily accessible controls
- Easy to operate with one hand, even when wearing gloves
- Multifunction display shows all important truck information
- Generous storage for rolls of shrink-wrap, clipboard or scanner

Compact chassis

Handling

- Compact chassis and small turning circle for optimum manoeuvrability in tight spaces
- Creep speed option for precise handling in tight spaces
- Booster function for short-term increase in power
- Optional compact Li-ION battery (for T14 and T16) for additional manoeuvrability

Easy access to internal components

Service

- Robust AC motor for long maintenance intervals and lower operating costs
- Low-wear components for long service life and high availability
- Easy-to-reach service components for fast, efficient maintenance and repair
- CAN bus architecture for easy access to all truck data
- Optional data transmission unit for remote diagnostics and software updates

Subject to modification in the interest of progress. Illustrations and technical specifications could include options and are not binding for actual constructions. All dimensions subject to usual tolerances.
